1. Introduction

Spraoi Chill Mhantáin strives to comply with applicable laws and regulations related to Personal Data protection in Ireland.

This policy document outlines the basic principles by which Spraoi Chill Mhantáin handles personal data of parents, children, suppliers, employees and other individuals who are involved with the service. This policy indicates the responsibilities of its employees, contractors, volunteers and students while processing personal data.

Employees will consider the personal data held in their individual classrooms. Examples of personal data we hold would be the information on each child usually located in a folder. It contains critical information such as medical instructions and allergy information, it also contains dates of birth so we can ensure we celebrate a child's birthday, it also contains legal guardian contact information etc. We know this information needs to be in the classroom as operationally it needs to be at hand however we will ensure that we take all reasonable measures to keep it safe; in a cupboard out of reach and out of sight.

Another example is the collection of information from a parent or guardian about their child for registration purposes on PIP. This information is required for children to be registered for various schemes (ECCE, CCSP, TEC, CCS). We ensure that we have consent for collecting that information from that parent or guardian and then we need to ensure that we protect that information and dispose of it confidentially at the appropriate time. This document outlines the Spraoi Chill Mhantáin policy for Personal Data Protection.

2. Who is this policy for?

All employees either permanent or temporary, all contractors, all volunteers and students need to read and understand this document so they are fully aligned with the policy of Spraoi Chill Mhantáin. This policy is available to parents on request to outline how our service obtains, holds and processes personal data.

3. Reference Documents

There are three components to this principle; Lawfulness, Fairness and Transparency and they are all linked. When it comes to (Lawful) Spraoi Chill Mhantáin relies on a GDPR fundamental which is consent for the majority of the processing that it undertakes. Spraoi Chill Mhantáin also relies on the lawful GDPR fundamental of contractual for processing.

Purpose Limitation

Personal data is collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes.

We define up front the personal information we collect, what is going to be used for and we ensure that the personal information we hold is used for the intended purpose only.

We do that through our privacy notice, our terms and conditions and our consent forms.

For example, if we collect personal information from a parent about their child and they have consented to that information being used in our registration forms and for the care of their child, I cannot use that information for any other purpose.

Data Minimisation

Personal data must be adequate, relevant, and limited to what is necessary in relation to the purposes for which they are processed.

Only collect/hold enough data to carry out the process, don't collect/hold what you don't need. Keep it minimal.
